Note: To include refrigerator energy consumption in final calculations, enter '1' into the **1 / 0** column above. If you have a second refrigerator or would like to enter a more precise value for yours, enter it into the **kWh / yr** column and place a '1' in the **1 / 0** column.

Note: Items in **red font** may have alternative models that operate using a more eco-preferable energy source, i.e. natural gas, or DC power.
