Overview

Armstrong Fine Fissured and Dune acoustical ceiling panels feature Low VOC and formaldehyde emissions (equivalent to E0), high-durability, high light reflectivity, with high recycled content: suitable for interior use in a wide range of commercial and industrial applications.

Fine Fissured and Dune Ceiling Panels are produced from a high percentage of recycled and naturally occurring materials. Fine Fissured and Dune are durable, with low emissions and manufactured in Shanghai and St Helens, Oregon with certification by GECA Ecolabel (License No. ARM-2007).

The Fine Fissured and Dune range are treated with BioBlock paint, a special non-toxic biocide, which is used to inhibit growth of mould and mildew associated with high humidity conditions. Armstrong offer a '30 Year Performance' HumiGuard Plus 'anti-sag' guarantee, stated to be formulated to withstand temperatures up to 49°C and 99% humidity.

With a high Light Reflectance (LR) of up to 0.85, Fine Fissured and Dune maximise the use of natural daylight, potentially decreasing energy consumption from artificial lighting. Armstrong Fine Fissured and Dune achieves a Noise Reduction Coefficient (NRC) of 0.50 to 0.70.

The typical ceiling suspension grid is Armstrong's PeakForm™ two way exposed 'Tee' section, constructed from roll-formed steel and produced in China.

A range of imported aluminium grid systems is also available for Ultima products. The steel grid has approximately 1/5 of the embodied energy of the aluminium grid.

ing offices, classrooms, corridors, shopping centres, laboratories, patient rooms and theatres.

GREEN BUILDING RATING TOOLS

Use Tabs to navigate to preferred content

Green Star[®] icons pop up text

You'll find the Green Star[®] icons under the **Summary** Tab- just roll the cursor over the icon for explanations of each credit

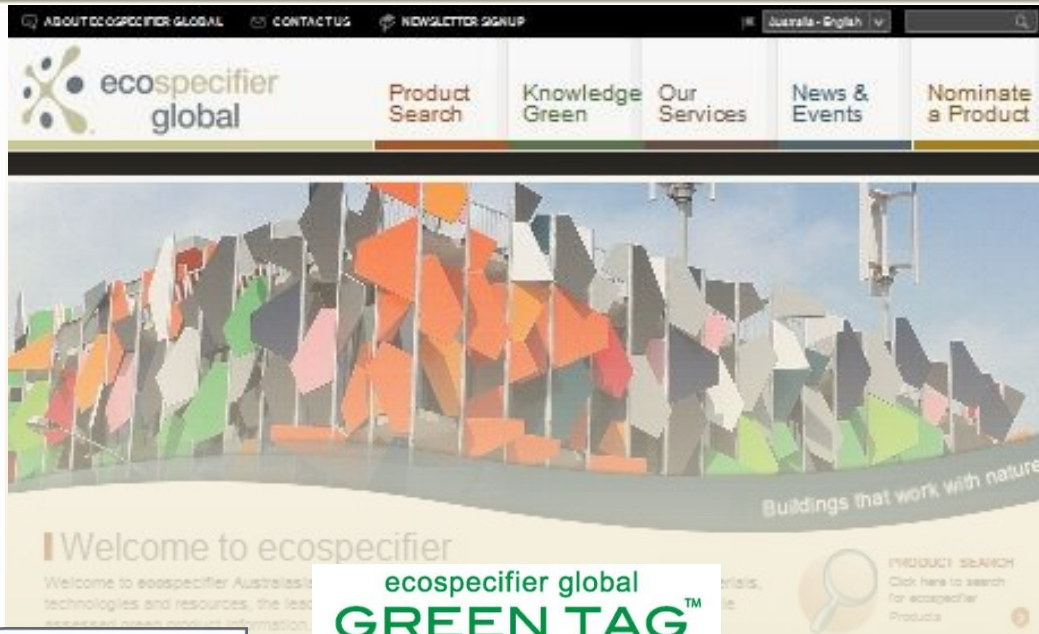

The screenshot displays the 'GREEN BUILDING RATING TOOLS' interface. It features a 'PRODUCT CERTIFICATION' section with a 'verified' badge. Below this, a 'Rating Card' tooltip is shown over a 'Green Star - Office v2' icon. The main content area lists several building types, each with a set of colored icons representing different credit categories and their scores:

- Green Star - Office Interiors v1.1** (Orange icons): MAT 5, IEQ 3, IEQ 10, IEQ 12, ENE 1, ENE 2, MAT 6
- Green Star - Office v2** (Blue icons): M&M 7, IEQ 12, IEQ 1, IEQ 14, ENE 1, ENE 2
- Green Star - Office v3** (Green icons): MAT 7, IEQ 4, IEQ 12, IEQ 14, ENE 1, ENE 1
- Green Star - Retail Centre v1** (Red icons): M&M 8, IEQ 4, IEQ 7, IEQ 9, ENE 1
- Green Star - Education v1** (Light Green icons): M&M 7, IEQ 3, IEQ 7, IEQ 8, ENE 2, ENE 2
- Green Star - Industrial v1** (Light Green icons): M&M 7, IEQ 3, IEQ 7, IEQ 8, ENE 1, ENE 1
- Green Star - Multi Unit Residential v1** (Teal icons): M&M 7, IEQ 3, IEQ 7, IEQ 8, ENE 1, ENE 1
- Green Star - Healthcare v1** (Purple icons): M&M 7, IEQ 3, IEQ 7, IEQ 8, ENE 1, ENE 1

At the bottom, there is a 'GBCA disclaimer' section with a 'GBCA' icon and a 'BACK' button.
